

The newly redesigned TRV provides improved light evenness and versatility (with removable side walls) for effective color evaluation of the reflective print appearance from transparencies and proofs. These combination viewers permit either transmission only or reflection only viewing; the addition of a mask allows side by side comparison of prints/proofs to transparencies. Units can be ordered with the optional LiteGuard II viewing system monitor. Available in two model sizes.

*Reflection-only viewing units comparable in appearance and design to the TRV-1e & 2e are available for exclusive viewing of color prints on the table or countertop as Models RV-1e and RV-2e.*

Viewing Areas for TRV:

Product	Reflection	Transmission (without side masks)	Transmission (with side masks)	Side by Side Color Proofing of Print to Transparency	
				Reflection	Transmission
SOFV-1e & TRV-1e	17" x 22" (43 cm x 56 cm)	12" x 22" (30 cm x 56 cm)	12" x 16" (30 cm x 41 cm)	17" x 12" (43 cm x 30 cm)	12" x 10" (30 cm x 25 cm)
SOFV-2e & TRV-2e	14" x 16" (36 cm x 41 cm)	10" x 16" (25 cm x 41 cm)	10" x 10" (25 cm x 25 cm)	14" x 8" (36 cm x 20 cm)	10" x 8" (25 cm x 20 cm)
