

## The Art of Expression since 1584

The Hahnemühle Digital FineArt Collection

### Photo Rag™, 308 g/m<sup>2</sup>

White, 100% rag content, smooth surface

© Milton H. Greene Archives "Dovima", 2002 - www.archivesmhg.com

#### Product Description

A smooth bright white 100% rag based paper specifically designed to meet the need of photographers or artists using digital photographic output. The heavier 308 gsm paper provides the weight of an art paper with a smooth calendered surface, which picks up every detail captured in the photograph.

#### Applications and Characteristics

The coated side of this paper provides excellent image sharpness and optimum colour graduation. The coating also offers a very high level of water resistance.

Common applications include:

Photographic and fine art reproduction, business cards, greeting cards, certificates and bookmaking. It is also ideal for computer generated artwork.

#### Physical Characteristics

	Unity	Valuation	Test Norm / Notes
Test Conditions		23°C / 50% R.H.	CSS20
Weight total	g/m <sup>2</sup>	308	ISO536
Thickness	mm	0,48	EN 20534
