

PremierArt™ Eco Print Shield

Give your Fine Art Prints & Photos the protection they deserve!

PremierArt™ Eco Print Shield is a revolutionary new water based protective coating designed specifically for water resistant ink jet media. Its advanced polymer technology will not crack under stretching, and will never go brittle. Eco Print Shield protects all instant dry ink jet media from moisture, light, humidity, atmospheric contaminants, abrasion and even fingerprints. This ecologically friendly protective coating is available in a Gloss, Satin and Matte finish.

No need to use solvent coatings again!

Until now, there has not been a coating designed specifically for water resistant ink jet media that worked. Other products either yellow, crack during stretching, or simply smell terrible. Eco Print Shield's unique advanced formula was designed FOR instant dry ink jet media. Eco Print Shield will double the print life of PremierArt Water Resistant Canvas for Epson. Details on back. It is easily applied using a brush or roller, or can be sprayed using a HPLV spray gun.

Features
